Make it possible to remove campaign environments Open Discussion

At the moment, it's only possible to create environments. I would like to have the option to remove campaign environments from a campaign.

Op dit moment kunnen er alleen maar environments aangemaakt worden. Ik zou graag de mogelijkheid hebben om campaign environments te kunnen verwijderen uit een campagne.

This also annoys me for several years already :). Once an environment is created in the campaign it's there forever, for example if you made a typo, you have the wrong and right version next to each other -_-
