Analytics: clickthrough overview Closed - Not enough votes

- Chantalle de Heer
- **Forum name:** #Verbetervoorstellen

In reports, we're provided with an overview of clickthroughs, allowing us to identify which links are clicked. It would be beneficial to extend this feature to analytics as well. Including clickthrough data in analytics would eliminate the need to rely solely on reports for insights into clickthroughs. This integration streamlines the analytics process, providing a comprehensive view of user engagement without the need to switch between different tools.
