Create the option in roles to only VIEW data model, not MANAGE

In roles, there should be the possibility to grant someone VIEW data model rights without having to grant MANAGE data model rights as well. Currently, the only option is to grant manage data model rights.

Bij rollen zou er de mogelijheid moeten zijn om iemand wél VIEW datamodelrechten te geven, zonder ook MANAGE datamodel rechten te moeten geven. Nu is de enige optie namelijk manage datamodel.
